The Latest From the Cybersecurity & Information Systems Information Analysis Center // January 14, 2025

## CISA PUBLISHES DRAFT NATIONAL CYBER INCIDENT RESPONSE PLAN

The Cybersecurity and Infrastructure Security Agency (CISA) published the Draft National Cyber Incident Response Plan (NCIRP) update for public comment on the Federal Register.

The NCIRP is the nation's strategic framework for coordinated response to cyber incidents along four lines of effort: asset response, threat response, intelligence support, and affected entity response. It includes coordination mechanisms, key decision points, and priority activities across the cyber incident response life cycle.

## NOTABLE TECHNICAL INQUIRY

### What are the major requirements of the Cybersecurity Maturity Model Certification for DoD contractors and subcontractors?

In response to the repeated attacks on the U.S. Department of Defense (DoD) supply chain, the release of the Cybersecurity Maturity Model Certification (CMMC) introduces a verification mechanism that will ensure the necessary security mechanisms are in place to better protect Controlled Unclassified Information (CUI) and other sensitive data made available to contractor organizations. [READ MORE](#)

## UPCOMING WEBINAR

### Is Cyberspace Becoming More Defensible and Resilient?

January 29, 2025  
12:00 PM – 1:00 PM

*Presenter(s):* Jason Healey

*Host:* CSIAC

For over 50 years, the advantages in cyberspace have favored attackers, not defenders. Until the publication of the "U.S. National Cybersecurity Strategy" in 2023, it was never a goal to shift that advantage. Cyber defense gaining advantages over attacks needs to be measured; however, metrics remain at the level of individual controls or enterprises. This webinar advances a framework of indicators to track if defense is winning across three main areas... [READ MORE](#)

## HIGHLIGHT

### 3rd MDTF Cyber Defenders Partner With Allies During Keen Sword 25

SAGAMI DEPOT, Japan — A cyber mission element from the Multi-Domain Effects Battalion (MDEB), 3rd Multi-Domain Task Force, partnered with joint and allied forces to conduct defensive cyber operations as part of Keen Sword 25 from Oct. 23 to Nov. 1, 2024.

An MDEB Defensive Cyber Operations (DCO) Mission Element partnered with Japanese and Canadian cyber professionals to defend mission-critical infrastructure from adversary intrusions on a live cyber range. Using various cyber tools, the teams successfully mapped the network,... [LEARN MORE](#)

## EVENTS

### Rocky Mountain Cyberspace Symposium 2025 (RMCS25)

February 10–13, 2025  
Colorado Springs, CO

### Homeland Security Cybersecurity and Infrastructure Conference

February 26–27, 2025  
Atlanta, GA

### 18th Annual Homeland Security Week

March 25–26, 2025  
Arlington, VA

## VOICE FROM THE COMMUNITY

### Ryan Ceresani

*Artificial Intelligence/Machine-Learning (AI/ML) Engineering Manager, Lockheed Martin*

Ryan Ceresani leads an applied computer vision team that develops novel, innovative products across a wide range of sensors and modalities at Lockheed's AI Center. The team has a heavy focus in rapidly maturing capabilities from research to fieldable, edge platforms. Beyond AI development, this includes a focus on robust, traceable ML operation processes and high-quality, modular software applications.

## ARE YOU A SME?

If you are a contributing member of the information systems community and are willing to help others with your expertise, you are a subject matter expert (SME).

Join our team today.

## ABOUT TECHNICAL INQUIRIES (TIs)

---

### WHAT IS THE TI RESEARCH SERVICE?

- FREE service conducted by technical analysts
- 4 hours of information research
- Response in 10 business days or less

### WHO CAN SUBMIT A TI?

- U.S. government (federal, state, or local)
- Military personnel
- Contractors working on a government or military contract

### WHY UTILIZE THE TI RESEARCH SERVICE?

- Get a head start on your technical questions or studies
- Discover hard-to-find information
- Find and connect with other subject matter experts in the field
- Reduce redundancy of efforts across the government

To submit a TI, go to  
<https://csiac.dtic.mil/technical-inquiries>

## FOR MORE: FOLLOW US ON SOCIAL

---

## RECENT CSIAC TIs

---

- What efforts are currently being worked for quantum antennas on U.S. Department of Defense platforms?
- What information is available on secure identity and access management solutions?
- What documents exist for the following U.S. Air Force database systems: ILSS, GO81, IMDS, BLADE, ESCAPE, and ADVANA?

## RECENT DSIAC & HDIAC TIs

---

- What information exists on aerial-based datasets of maritime vessels for training deep-learning artificial intelligence models to perform various tasks?
- What literature exists on using laser illumination with high-speed imaging?
- Who is developing commercial- and government-off-the-shelf wearable devices with geolocation tracking and physiological informatics?
